Jiří Pokorný

AI ENGINEER

Profile

AI Engineer working mainly in Python, with 3.5+ years at SAP, including ML Engineering work on an NLP system that classifies real production customer incidents. Master's thesis on authorship verification (several hundred experiments from TF-IDF to fine-tuned transformers and LLMs, best F1 92.38%), deployed as a FastAPI + React web app.

Experience

Associate Developer, SAP ČR, spol. s r.o., Brno

JUN 2022 - FEB 2026

Enterprise Apps

- Developed backend features for SAP S/4HANA applications and debugged and resolved production issues in live customer systems.

ML Engineering

- Contributed to the ML Engineering team's data and modelling work (Python, scikit-learn), including an NLP system that classifies real production SAP customer incidents.
- Built the bachelor's thesis on this system.

Developer / Analyst (part-time), Alvao s.r.o., Brno

FEB 2022 - JUN 2022

- Implemented new features and program changes in ASP.NET Core MVC (.NET 6) applications, from the Razor/Bootstrap frontend to Microsoft SQL Server.

Corporate Sales Executive, Marcus Evans Ltd, London

JUL 2018 - MAY 2019

- Sold VIP corporate hospitality packages by phone across Europe (entirely in English), negotiating and closing deals directly with C-level executives, often at Fortune 500 companies.

Key Projects

Authorship Verification System (Master's Thesis)

- Built an end-to-end authorship verification system for English texts. Ran several hundred experiments across BoW/TF-IDF, graph-based, transformer and LLM approaches, with Optuna searching thousands of preprocessing, feature and model pipelines.
- Achieved a best F1 score of 92.38% using the Longformer model with a fine-tuned classification head.
- Deployed it as an interactive web application (FastAPI + React/TypeScript) serving an ML model for real-time verification of text pairs (live demo and more available on GitHub).

Education

Master's, Faculty of Business and Economics, Mendel University, Brno

JUN 2023 - FEB 2027 (Expected)

Open Informatics - thesis completed, state exam pending

Bachelor's, Faculty of Business and Economics, Mendel University, Brno

JUL 2020 - JUN 2023

Informatics and System Engineering
